Healing Environments for America's Heroes

The Changing Face of Critical Care

▲ Wall-mounted work station

The Multi Compartment Computer WorkStation by Proximity Systems combines functionality with aesthetics for modern, sophisticated design. Durable wood construction and curved edges create a sophisticated, furniture design available in hundreds of finishes to match, complement, or contrast any décor. The custom-designed, wall-mounted, retractable computer WorkStation separates a flat panel monitor and keyboard from the PC and has numerous options including swivel and adjustable height.
