

# Classic Series, Wall-Mounted Computer Workstation

The Classic Series, CXT 28 products elegantly support your caregivers so they can focus on what matters most –caring for their patients. Like a trusted assistant, these streamlined and compact units are there when your staff needs them. Through increased storage and accessibility the Classic Series CTX workstations allow caregivers to devote more time to one-on-one and face-to-face interactions with their patients. When no longer in use, they tuck neatly away to help free up floor space. Rounded corners are pleasing to the eye and help staff and patients avoid any bumps or bruises.

## Standard CXT Features

### Built to Last

The Classic Series Wall-Mounted Computer Workstations feature work surfaces designed to hold up to 400 lbs of weight, so even when the workload gets heavy, the workstation remains unscathed.

### Unit Ventilation

Enhanced ventilation provides continuous airflow to protect equipment in the CPU compartment from overheating.

### Mouse Storage

Unique accessory storage allows the keyboard and mouse to dock automatically when the work surface is closed by the user.

### Two Compartment Curved Door Design

The innovative two compartment curved door design aids in deflecting collision to the unit, minimizing damage and possible injury.

### Sleek & Secure

The upper lockable compartment stores and protects the CPU, cables and power supply securely. This helps protect against equipment damage and provides caregivers with an unobstructed workspace

### Recessed Storage

Recessed storage in the main cabinet area allows for additional storage of accessories like scanners and small label printers.
