

# Wall-Mounted Computer Workstation with Monitor Tilt/Arm - Right/Left Swivel

Open

Closed

The Classic Series CXT-28-SVL models are designed to increase caregiver flexibility and the overall patient experience. An innovative swivel feature allows caregivers to use the workstations right from the patient's bedside, optimizing one-on-one interactions and patient satisfaction. When the unit is no longer in use, it folds back into a tidy, compact unit to create a clean and open room flow.

## Standard Features

### Swivel Design

Depending on the needs of each facility, this innovative swivel design can be ordered to swivel off of the wall 90 degrees. This feature gives the user optimal flexibility for engaging with the patient.

### Two Compartment Curved Door Design

The attractive and traditional two compartment curved door design aids in deflecting collision to the unit, minimizing damage and possible injury.

### Sleek & Secure

The upper lockable compartment stores and protects the CPU, cables and power

supply securely. This helps protect against equipment damage and provides caregivers with an unobstructed workspace.

### Unit Ventilation

Enhanced ventilation provides continuous airflow to protect equipment in the CPU compartment from overheating.

### Recessed Storage

Recessed storage in the main cabinet area allows for additional storage of accessories like scanners and small label printers.

### Unique Keyboard & Mouse Storage

Proximity's cabinets feature unique keyboard and mouse storage that allows the accessories to dock automatically when the workstation is closed by the user.

### Built to Last

The Classic Series Wall-Mounted Computer Workstations feature work surfaces designed to hold up to 400 lbs. of weight, so even when the workload gets heavy, the workstation remains unscathed.
