

Wall-Mounted Computer Workstation with Medication Storage

Providing exceptional care isn't a simple task, so why use a regular workstation to do it? The CTX 28 medication storage products are designed with your caregivers in mind. Built to store all of the essential items you will need to provide quality care to your patients.

Standard Features

Secure Storage Compartment

The center compartment offers secure storage of medication or supplies, and comes standard with an Electronic Keypad Locking System allowing for programmable, secure and convenient accessibility.

Built to Last

The Classic Series Wall-Mounted Computer Workstations feature work surfaces designed to hold up to 400 lbs of weight, so even when the workload gets heavy, the workstation remains unscathed.

Unit Ventilation

Enhanced ventilation provides continuous airflow to protect equipment in the CPU compartment from overheating.

Two Compartment Curved Door Design

Our attractive and traditional three compartment curved door design aids in deflecting collision to the unit, guaranteed to minimize damage and possible injury.

Sleek & Secure

The upper lockable compartment stores and protects the CPU, cables and power supply securely. This helps protect against equipment damage and provides caregivers with an unobstructed workspace.

Keyboard & Mouse Storage

Unique accessory storage allows the keyboard and mouse to dock automatically when the work surface is closed by the user
