

Classic Series, Wall-Mounted Computer Workstation with Monitor Tilt/Arm

Closed

Open

The Classic Series, CXT 28 products elegantly support your caregivers so they can focus on what matters most – caring for their patients. Like a trusted assistant, these streamlined and compact units are there when your staff needs them. Through increased storage and accessibility the Classic Series CTX workstations allow caregivers to devote more time to one-on-one and face-to-face interactions with their patients. When no longer in use, they tuck neatly away to help free up floor space. Rounded corners are pleasing to the eye and help staff and patients avoid any bumps or bruises.

Standard CXT Features

Built to Last

The Classic Series Wall-Mounted Computer Workstations feature work surfaces designed to hold up to 400 lbs of weight, so even when the workload gets heavy, the workstation remains unscathed.

Unit Ventilation

Enhanced ventilation provides continuous airflow to protect equipment in the CPU compartment from overheating.

Mouse Storage

Unique accessory storage allows the keyboard and mouse to dock automatically when the work surface is closed by the user.

Two Compartment Curved Door Design

The innovative two compartment curved door design aids in deflecting collision to the unit, minimizing damage and possible injury.

Sleek & Secure

The upper lockable compartment stores and protects the CPU, cables and power supply securely. This helps protect against equipment damage and provides caregivers with an unobstructed workspace

Recessed Storage

Recessed storage in the main cabinet area allows for additional storage of accessories like scanners and small label printers.

CXT 28-SLIM

CXT 28-SLIM

The Classic Series, SLIM Wall-Mounted Computer Workstation is engineered to supplement your caregivers through increased storage and accessibility. The unit features a long list of space-saving features as well as technological enhancements that will improve working conditions and increase both caregiver and patient satisfaction.

Space-Saving Solution

A slim version of our popular CXT 28-SLIM model, this unit is only 4" (10 cm) deep when closed making it ideal for space constrained or egress areas.

CXT 28-T

This Classic Series, Wall-Mounted Computer Workstation combines practicality and comfort with adjustable settings, taking care of the ergonomic needs of your caregivers.

Adjustable Tilt

With a monitor tilt bracket that offers 25° of pan and 13° tilt adjustability, users are in control of their own viewing comfort.

CXT 28-T

CXT 28-A

This unique model brings bedside care to a whole new level with increased motion and flexibility.

Articulating Monitor Arm

This model features an articulating monitor arm that supports up to 50 lbs, and allows the user to pull the monitor up to 11" from the back of the cabinet while offering a 10° tilt to minimize glare. The user can now view the patient and the information on the screen simultaneously using the monitor arm's 180° rotation.
