

# Wall Mounted Workstations and Medication Supply Care Stations

**PROXIMITY**

## About Us

For more than 25 years, Proximity creates solutions that bring people together. Our family-run company has been building furniture that doesn't just enhance efficiency, but actually helps to improve person-to-person interactions. From hospital examination rooms to training centers and airports, our diverse line of wall mounted workstations, medication cabinets, retail kiosks, and modular units enable caregivers, customers, and technology to interact in a safe, seamless, and effective manner.

American-made in Houston, Texas, our wall mounted workstations and supply storage cabinets are currently installed in more than 1,500 facilities in the U.S.

Let's work together to optimize your facility. With our innovative designs and extensive manufacturing experience, we're **care within reach**.

our original, curved workstations fit perfectly into healthcare facilities, government agencies and other buildings.
