

Retrofit

UVC-RF

IMPROVE YOUR DISINFECTION REGIMENT WITHOUT LOSING FOCUS ON PATIENT CARE.

UV-CLEAN by Proximity is your ultimate guard against pathogens, eliminating 99.9%* of pathogens on high touch surfaces, including your keyboard. Our automated disinfecting technology is your second line of defense against microorganisms.

The UV-CLEAN Retrofit (UVC-RF) is designed to easily attach to your existing Proximity wall mounted workstations. The UVC-RF device comes pre-assembled with simple, industrial two-sided tape to adhere to any shelf surface. Automated cleaning cycles with low doses of UV-C light is harmful for pathogens, yet safe for you. Although hand washing policies should be your first layer of defense, UVC-RF will provide an additional level of disinfection to all high-touch surfaces.

How Does It Work?

- Germicidal UV-C light is dispensed at low levels
- Microorganisms absorb the UV-C wavelength
- DNA of microorganisms are broken
- Pathogens are disabled, stopping them from reproducing and spreading

How do I Know if It is Cleaning Consistently?

Simply download the cycle reports from each individual device to confirm cleaning. Every unit includes a USB cable that allows you to connect the UVC-RF device to a PC. Easily access the built-in audit trail that resides locally on each device, eliminating any network security issues.

UV-CLEAN IS JUST WHAT THE DOCTOR ORDERED.

Proactive, Next-Generation High Touch Surface Disinfectant

With UV-CLEAN, you can set up a strong line of defense against microorganisms on high-touch surfaces or objects. Gain the upper hand in the battle against germs.

PRODUCT DETAILS

- Automated and customizable cleaning cycle
- Motion activated for safe deployment of UV-C light
- 24" active cleaning area range
- Internal memory and built-in audit trail
- Flexible workspace configurations
- Sleek and stylish design
6" length x 1" diameter
- Affordable, scalable investment
- Independent low energy LED task light
- One-year warranty

MATERIAL OVERVIEW

- 100% recyclable UV stable plastic
- UV-C bulb
- 12" micro USB to USB wire included
- 5.5 mm power port connection to USB or supplied power adapter
 - North America: UVC-RF-NA
 - International: UVC-RF-UP

KEY FEATURES

- Attaches to any existing wall mounted computer workstation and Proximity wall cabinets
- Optimizes day-to-day workflow with an automatic means of self-disinfection
- Low cost of ownership to implement device that won't impact efficiency
